Number: 61

Attached is a proposed rule that would amend the risk-based capital treatment of equity investments held by savings associations that are also permissible for national banks. Under the proposal, such investments would be assigned to the 100 percent risk-weight category, rather than being deducted from capital calculations. The regulation would also clarify the capital treatment of securities representing investments in pools of assets, such as mutual funds.

The proposed rule is published in the *Federal Register*, Vol. 57, No. 171, pp. 40147-40148. Comments on the proposed rule must be received on or before October 2, 1992, addressed to: Director, Information Services, Public Affairs Office, Office of Thrift Supervision, 1700 G Street NW, Washington, DC 20552.
